

## Natural Science, Vol. 9 (Classic Reprint)

Filesize: 7.83 MB

### ***Reviews***

*Excellent electronic book and helpful one. It usually does not cost a lot of. I am quickly will get a pleasure of reading through a written publication.*

*(Bernardo Feeney Jr.)*

## NATURAL SCIENCE, VOL. 9 (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Natural Science, Vol. 9 In the course of a lecture given at the opening of a laboratory for clinical medicine in Philadelphia (see Johns-Hopkins Hospital Bulletin, no. 58, January, 1896), Dr. W. H. Welch, Professor of Pathology in the University, expressed regret that a historical study of the development of laboratories had not yet been undertaken. The earliest account that we have of laboratories is of those associated with the magnificent library and museums of Alexandria. A vast amount of anatomical work was performed there, and, from the fragmentary evidence that is left us, it seems plain that physiological investigation was conducted in a fashion that would justify some of the extremest diatribes of the Anti-Vivisection Society's emissaries. But if we leave anatomy and chemistry out of account, laboratories for the combined purposes of research and teaching are creations of the present century, while the greater number of them date from after the year 1870. A mere list of the subjects for the study of which there exist properly-equipped special laboratories would be of great interest, and would astonish even the most well-informed man. No doubt an enormous amount of valuable work has been done in cellars like those in which Bernard began his investigations in Paris, or Lord Kelvin his physical investigations at Glasgow. Men of first-rate ability transcend the conditions under which they work, but the average man who could do only bad work under bad conditions, if placed in a first-rate laboratory will turn out good work. Professor Welch quotes what Wurtz said of the money expended upon laboratories: It is a capital placed at a high rate of interest, and...
