*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

What if someone told you that you were living in the wrong time and that the unparalleled catastrophes of the world were largely due to an erroneous perception of time? Would you believe it? 2012: BIOGRAPHY OF A TIME TRAVELER is the authorised biography of Jose Arguelles, the man who first introduced the date December 21, 2012 into the mass consciousness with The Mayan Factor . Following a life-changing vision at age 14, atop the Pyramid of the Sun in Teotihuacan, Mexico, Arguelles began a lifelong journey to discover the underlying mathematics and prophecies associated with the Mayan calendar. 2012: BIOGRAPHY OF A TIME TRAVELER is an engaging journey through the inner and outer realms of this visionary. As the story unfolds, we follow Arguelles through many startling synchronicities and transformations of consciousness. Through his epic saga, we may discover that every detail of our own lives is, also, precisely designed, down to the most seemingly mundane circumstance. Through uncovering the Mayan codes, Arguelles was led to discover the telepathic nature of time. He also realised that the human species is living in artificial time, which is disrupting its planetary environment and destroying its civilisation. This book sheds light on the crisis our planet is undergoing today and offers clues about how we can realign with natural time to make a peaceful transition on December 21, 2012.
